

GÁBOR MÁRTON

Software Developer

PROFILE

I am a 28 years old Software Developer. A cheerful, optimistic, persistent person, who works hard to achieve what he has in mind. My main goal is to be a part of an organization, where I can improve and where I can work for a long-term.

Commerce and Marketing (2011-2016)
[Budapest Business School](#)

Python + Javascript Class (2017-2018)
[Green Fox Academy](#)

EXPERIENCE

Software Developer (2019-2020)
[Invenshure, LLC](#)

Created a Vacation Manager Tool for the company, where the employees were able to manage their holidays and leaves. The accepted requests were pushed into Google Calendar.

It was written in **Flask framework** with **Bootstrap**.

After that I was working on the Frontend side of the Imbio Platform, which is a medical imaging software.

We used **React.js** and **Material UI**.

Software Developer (2020)
[lumio labs](#)

Created an Electric Motor Ordering web application for sailing boats.

Technologies used: **React.js**, **Redux**, **Material UI**.
